

Walker, Medal of Honor recipient and highest ranking officer missing in action from World War II, have never been recovered and brought home to rest: Now, therefore, be it

Resolved, That the Senate—

(1) recognizes that the heroic actions and selflessness of the crew of the San Antonio Rose, B-17F (No. 41-24458), led to lessons learned that directly impacted the success of subsequent missions, including the Battle of the Bismarck Sea;

(2) commemorates the 75th anniversary of the loss of the San Antonio Rose and its crew;

(3) expresses gratitude to the Airmen who served aboard the San Antonio Rose for their faithful service; and

(4) honors the memory of the crew of the San Antonio Rose with a pledge to never forget their sacrifice by encouraging the continued search and recovery of their remains, and to fulfill the promise to finally bring them home.

SENATE RESOLUTION 327—DESIGNATING THE WEEK OF NOVEMBER 5 THROUGH 12, 2017, AS “NATIONAL CARBON MONOXIDE POISONING AWARENESS WEEK”

Ms. KLOBUCHAR (for herself and Mr. HOEVEN) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 327

Whereas carbon monoxide is an odorless, colorless gas that is produced whenever any fuel, such as natural gas, propane, gasoline, oil, kerosene, wood, or charcoal, is burned;

Whereas devices that produce carbon monoxide include cars, boats, portable power generators, gasoline engines, stoves, and heating systems, and carbon monoxide produced from these sources can build up in enclosed or semi-enclosed spaces;

Whereas carbon monoxide is often referred to as the “silent killer” because it is colorless, odorless, tasteless, and non-irritating, and ignoring early stages of carbon monoxide poisoning may cause unconsciousness and continual exposure to danger;

Whereas according to the Centers for Disease Control and Prevention, each year in the United States, carbon monoxide poisoning kills more than 150 individuals and sends approximately 20,000 individuals to emergency rooms;

Whereas when people breathe in carbon monoxide, the poisonous gas enters the bloodstream and prevents adequate intake of oxygen, which can damage tissues and result in death;

Whereas, given their common preexisting medical conditions, individuals older than age 65 are particularly vulnerable to carbon monoxide poisoning;

Whereas for most individuals who suffer from carbon monoxide poisoning, the early signs of exposure to low concentrations of carbon monoxide include mild headaches and breathlessness upon moderate exercise;

Whereas sustained or increased exposure to carbon monoxide can lead to flu-like symptoms, including severe headaches, dizziness, tiredness, nausea, confusion, irritability, and impaired judgment, memory, and coordination;

Whereas breathing in low concentrations of carbon monoxide can cause long-term health damage, even after exposure to the gas ends;

Whereas most cases of carbon monoxide exposure occur during the colder months of December, January, and February, when oil and gas heaters are more heavily in use;

Whereas on January 5, 1996, the Burt family of Kimball, Minnesota, was poisoned by carbon monoxide from a malfunctioning furnace in the home of the Burt family, resulting in the deaths of 15-month-old Zachary Todd Burt and 4-year-old Nicholas Todd Burt;

Whereas according to the North Dakota Department of Health, among residents over the age of 65, carbon monoxide poisoning was the leading substance-related cause of death in North Dakota from 2009 to 2014;

Whereas the North Dakota Department of Health found that, in 2010, carbon monoxide poisoning was the second-leading cause of unintentional poisoning death among adults ages 30 through 49;

Whereas on June 7, 2015, 3 adults and 1 child in Blanchard, North Dakota, tragically passed away from carbon monoxide poisoning as the result of a carbon monoxide leak caused by an improperly vented water heater; and

Whereas increasing awareness about the dangers of carbon monoxide can help prevent poisoning and save lives: Now, therefore, be it

Resolved, That the Senate designates the week of November 5 through 12, 2017, as “National Carbon Monoxide Poisoning Awareness Week”.

SENATE RESOLUTION 328—RECOGNIZING NOVEMBER 25, 2017, AS “SMALL BUSINESS SATURDAY” AND SUPPORTING THE EFFORTS OF THE SMALL BUSINESS ADMINISTRATION TO INCREASE AWARENESS OF THE VALUE OF LOCALLY OWNED SMALL BUSINESSES

S. RES. 328

Whereas there are more than 29,000,000 small businesses in the United States;

Whereas small businesses represent 99.9 percent of all firms in the United States;

Whereas small businesses employ more than 47 percent of the employees in the private sector in the United States;

Whereas small businesses constitute nearly 98 percent of firms exporting goods;

Whereas small businesses pay more than 41 percent of the total payroll of the employees in the private sector in the United States;

Whereas small business generated more than 61 percent of net new jobs created between 1993 and 2016; and

Whereas November 25, 2017, is an appropriate day to recognize “Small Business Saturday”: Now, therefore, be it

Resolved, That the Senate joins with the Small Business Administration in—

(1) recognizing and encouraging the observance of “Small Business Saturday” on November 25, 2017; and

(2) supporting efforts—

(A) to encourage consumers to shop locally; and

(B) to increase awareness of the value of locally owned small businesses and the impact of locally owned small businesses on the economy of the United States.

SENATE RESOLUTION 329—EXPRESSING SUPPORT FOR THE DESIGNATION OF OCTOBER 2017 AS “NATIONAL AUDIOLOGY AWARENESS MONTH”

Ms. WARREN (for herself, Mr. GRASSLEY, and Ms. HASSAN) submitted the following resolution; which was considered and agreed to:

S. RES. 329

Whereas, according to the Centers for Disease Control and Prevention, hearing loss is the third most common chronic physical condition in the United States;

Whereas the National Institute on Deafness and Other Communication Disorders and the Centers for Disease Control and Prevention have found that 24 percent of adults in the United States, or 40,000,000 individuals, may have noise-induced hearing loss in 1 or both ears;

Whereas, although the prevalence of hearing loss increases with age, approximately 40 percent of individuals with hearing loss are under the age of 60;

Whereas people frequently delay seeking assessment and treatment for their hearing loss;

Whereas audiologists are health care professionals who diagnose, treat, and manage hearing loss and balance disorders;

Whereas audiologists treat patients in many different settings, including private practice, hospitals, schools, Veterans Health Administration hospitals, and otolaryngology offices;

Whereas October 2017 would be an appropriate month to designate as “National Audiology Awareness Month”; and

Whereas there is a need for greater awareness on the part of the public regarding issues related to the hearing and balance care provided by audiologists: Now, therefore, be it

Resolved, That the Senate—

(1) supports the designation of October 2017 as “National Audiology Awareness Month”; and

(2) recognizes the actions of audiologists, including clinicians, researchers, and others who work to improve the well-being of individuals with hearing loss and balance disorders.
