

1939, the Mayport area was selected for the new base.

Lt. Commander Maynard R. Sanders assumed command of the new U.S. Navy Base in October 1940. Construction began immediately and Building 1, the Administration Building, was opened on Nov. 4, 1941. Although the plans for Mayport being a carrier base were put on hold, the base became a vital crash and patrol boat training facility.

When the war began in earnest, the Atlantic Fleet was dispersed leaving the shipping lanes along the East Coast vulnerable to attack from German submarines. The Porgy Patrol, named after the foul-smelling porgy fertilizer processing plant in the Village of Mayport, went on constant patrol hoping to spot submarines and reporting those findings to the radio tower so aircraft could be launched. Then, on April 10, 1942, with citizens watching from the shore in Ponte Vedra, the S.S. Gulf of America was sunk by the German U-boat U-123. Once again, the civilian population stepped up and the Porgy Patrols expanded to include shrimp boats, trawlers and yachts, which were converted by the Gibbs Shipyard, now BAE Systems.

The marine side of the base with its protected harbor was commissioned as Naval Station Mayport in December 1942. On April, 1944, Mayport's air facility, the Admiral David L. McDonald Field, was commissioned as Naval Auxiliary Air Station (NAAS). After the war, both the marine base and the airfield were decommissioned. The United States Coast took over the base and operated small boat camps until 1947. Because its location is so pivotal, less than a year later Naval Station Mayport was reactivated, and within three years, its land area was expanded and its runway extended. Several name changes occurred over the years and during the Cold War, Mayport became the East Coast home for the Light Airborne Multi-Purpose System (LAMPS) squadrons and in 1988 the base was re-designated as a naval air station.

Naval Station Mayport began teeming with life once again. Investments continued and growth in land area, activities and command importance enhanced its value. As Mayport expanded, it began to accommodate more ships and sailors with their families. Its role was crucial during the Cuban Missile Crisis, providing logistical support as well as an advanced staging area for the Second Marine Division. The base has also received visits from Presidents Nixon and Reagan.

The first carrier to be stationed at Mayport was the USS *Tarawa* (CVS-40) and the last carrier to call Mayport home was the USS *John F. Kennedy* (CV-67) was decommissioned on March 23, 2007. The Navy continues to entertain the idea of Mayport as a second carrier site on the East Coast but funding is not available.

Today, Naval Station Mayport has undergone major developments in technology, services and infrastructure, making it well positioned to act at a moment's notice. The station's protected harbor can accommodate 34 ships and its runway is capable of handling most aircraft in the military's inventory. It is host to the Navy's United States Fourth Fleet, and is home to the USS *Iwo Jima*, the USS *New York* and the USS *Fort McHenry*. On November 7, 2014, Naval Station Mayport became the East Coast home port for the Navy's newest ships, the littoral combat ships.

Mayport has become an asset not just to Northeast Florida, but to country.

I salute the 75th Anniversary of Naval Station Mayport, which continues to be a major employer and economic stimulator. More importantly, its personnel continue to contribute through their hard work and dedication to the important missions of our nation's defense. Naval Station Mayport has a long history of supporting both the local community and the country and will continue to do so for years to come. I rise today to congratulate them on 75 successful years and hope Mayport sailors continue to keep their home anchors in Northeast Florida.

TRIBUTE TO ALEX THOMSEN

HON. DAVID YOUNG

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 2017

Mr. YOUNG of Iowa. Mr. Speaker, I rise today to recognize and congratulate Alex Thomsen of Underwood High School for winning the Class 1A, 126 pound bracket at the Iowa High School State Wrestling tournament earlier this year.

Iowa has a long and proud history of strong wrestling programs, producing college and Olympic champions for years. Winning two state championships in a row is the culmination of years of hard work and commitment, not only on the part of Alex, but also his parents, his family and coaches.

Mr. Speaker, the example set by Alex demonstrates the rewards of hard work, dedication, and perseverance. I am honored to represent him and his family in the United States Congress. I ask that my colleagues in the United States House of Representatives join me in congratulating Alex on competing in this rigorous competition and in wishing him nothing but continued success.

TRIBUTE TO PAUL OREFFICE,
FORMER CHAIRMAN OF THE
BOARD OF THE DOW CHEMICAL
COMPANY

HON. JOHN R. MOOLENAAR

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 2017

Mr. MOOLENAAR. Mr. Speaker, I rise today to pay tribute to Paul Orefice, the former Chairman of the Board of The Dow Chemical Company, upon his 90th birthday.

Paul was born in Venice, Italy and came to the United States with his family when he was 17 years old. He went on to attend Purdue University and graduated with a Bachelor's Degree in Chemical Engineering in 1949. After serving in the U.S. Army during the Korean conflict, Paul began his career at Dow Chemical in Midland, Michigan.

Following international assignments in Switzerland, Italy, Brazil and Spain, Paul became the first president of Dow Chemical Latin America in Coral Gables, Florida, in 1970. In 1971, he was elected as a member of the Board of Directors, and later as president of Dow Chemical U.S.A. in August 1975. Paul was named president and CEO of The Dow Chemical Company in May 1978 and chairman in May 1986.

As a humanitarian, Paul received the Encomienda del Merito Civil (Order of Civil Merit) in 1966 from the government of Spain and in 1978 he was honored with the title "Grand Ufficiale" by the Italian government. Paul is the first person to receive both the Société de Chimie Industrielle's Palladium medal and SCI America's Chemical Industry medal, which he received in 1981 and 1983, respectively.

Paul has been especially helpful in giving back to Michigan's Fourth Congressional District through his intentional engagement of the community. His involvement in bringing the Midland Soccer Club and the Greater Midland Tennis Center to life has not only provided opportunities for the local youth to come together to be active within the community, but also brings tourism to the area through tournaments and other events. Paul's involvement in philanthropy touches not only the Midland community, but reaches across the country as he is a Trustee of the Rollin M. Gerstacker Foundation, served as a Senior Member of the MD Anderson Cancer Center Visitors Board, and he served as Chairman of the Board of the Parkinson's Foundation from 2003 to 2007. His strategic thinking and continued contributions have greatly impacted families across the district and the country.

On behalf of the Fourth Congressional District of Michigan, I am honored today to recognize Paul Orefice for his lifetime of work in chemical engineering and for his commitment to the Midland Community.
