TAX REFORM

Mr. PERDUE. Mr. President, I say to the Presiding Officer, like you, I am a relative newcomer to this body. It is an enormous privilege and responsibility to be a Member. Like you, I come from the real world, spending a career where your word is your bond, and telling untruth is not rewarded. Unfortunately, in this body, sometimes that is not the case, and both sides are guilty. What Americans are demanding right now is a change in the status quo, not only in this body but in Washington and in its entirety.

Tonight I want to talk about some of the things that have happened in this body. I know both sides are guilty, but these are a couple of examples that I think rise above the norm and are so egregious that I could not let them stand.

Right now, Members of the minority party and their friends in the media are doing everything they can to stop us from changing the Tax Code this year. Their complaint about healthcare was that we weren't doing it in regular order. Now we are doing tax reform in regular order. The bill that we are working on in the Senate will go to committee as soon as next week. It will be marked up with amendments from both sides. At the right time, it will then go to this floor, and we will have amendments—again, from both sides—and we will vote that bill, up or down, into law or not. But Members on the other side are actively spreading numbers in studies that are based on false assumptions and have been proven to be untrue. I want to highlight a couple tonight, but there are many others.

On Monday, the Tax Policy Center released a study saying that the House plan, which was released last week, to change the Tax Code would raise taxes on 25 percent of American families. The minority leader said this on that day:

This analysis makes clear that over one quarter of taxpayers will see a tax increase under the Republican plan, all in the name of giveaways for the wealthiest Americans and biggest corporations. Republicans want to take away middle class deductions for people with student loan interest and medical expenses so that the rich can exploit bigger loopholes and corporations can pay lower taxes.

That study by the Tax Policy Center didn't even survive a full day. It was retracted later that afternoon. It is not even publicly available online today to review any longer. Do you know what is, though? The statements that came out of that report that day—false statements, just like the one I just gave, and many others highlighting that this study was reality. Maybe even worse is that these are false stories that are still running through the
